

## EXPEDITIONARY CONSTRUCTION

Remote locations present major execution, logistics and environmental challenges to any project. Janus Global Operations mitigates risk through every detail of implementation by providing complex, well planned construction solutions for housing, facilities, and infrastructure projects as well as communications and operational support for commercial Oil & Gas, Mining, and Government entities. With regional offices in the United States, Afghanistan, Iraq, and throughout the African continent, Janus provides the accessibility, local content, and support of a local firm backed by the strength, stability, and resources of an international company.

### CLIENT CHALLENGES

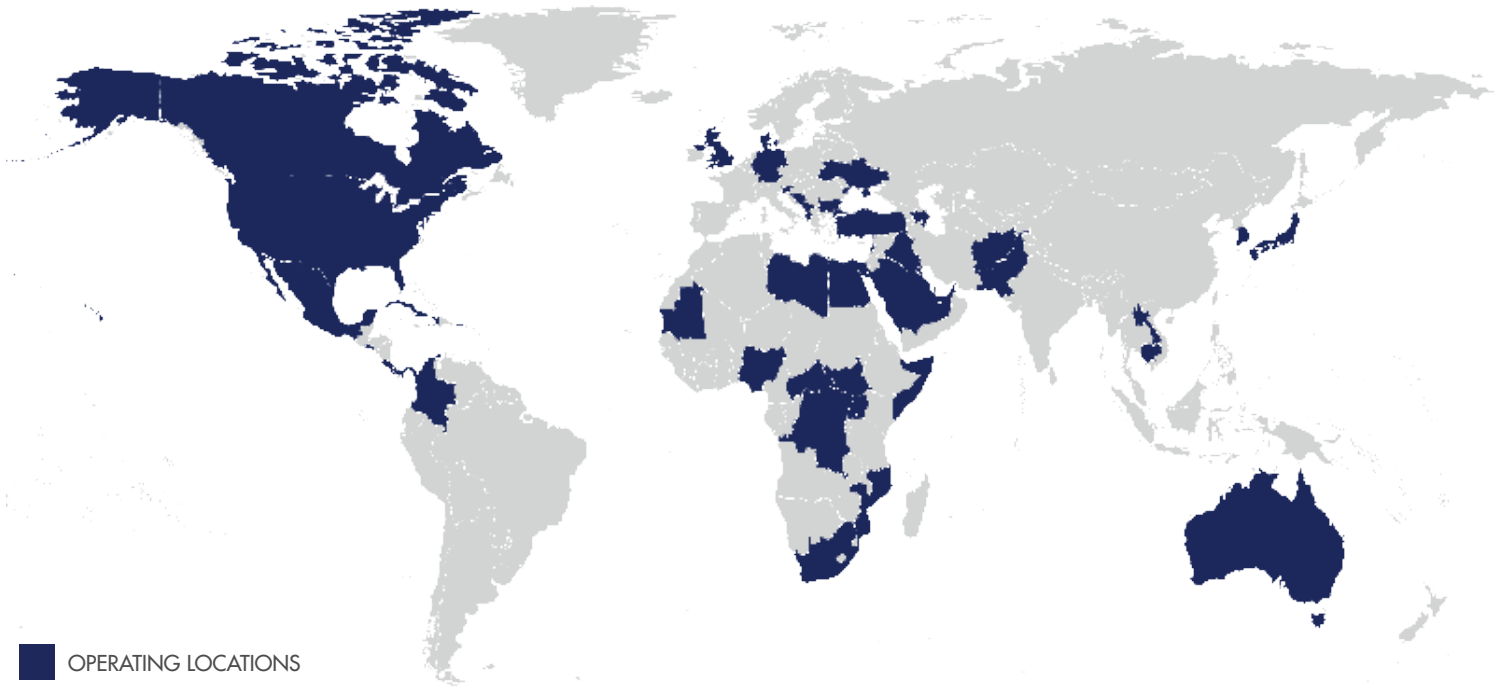

- Ensuring safety and quality when working in remote foreign locations
- Achieving local content objectives
- Political climate and physical conditions

### THE JANUS GLOBAL SOLUTION

- **Strong Safety Program and ISO-Certified Quality Management Systems** - We apply best practices from our world-class safety program along with our ISO-certified Quality Management System on all projects, regardless of their location or size.
- **Local Approach** - We team with local and regional partners to maximize local content on our sites while implementing the capabilities and experience necessary to achieve project goals.
- **Strong Global Footprint** - With ongoing operations throughout the world, we understand the regional conditions and can provide the experience needed to help maintain your operational readiness.
