

Military Range Managers need to reduce the environmental hazards of legacy targets while reducing lifecycle costs in support of military ranges. Janus Global Operations' patented RangeXchange® GreenTarget® is a cost-effective alternative to the traditional use of surplus military vehicles as targets. These heavy-duty 3-D steel targets, each exceptionally constructed and specifically developed for 360-degree live-fire training, accurately replicate enemy and friendly vehicles to provide more realistic training for the warfighter.

### CLIENT CHALLENGES

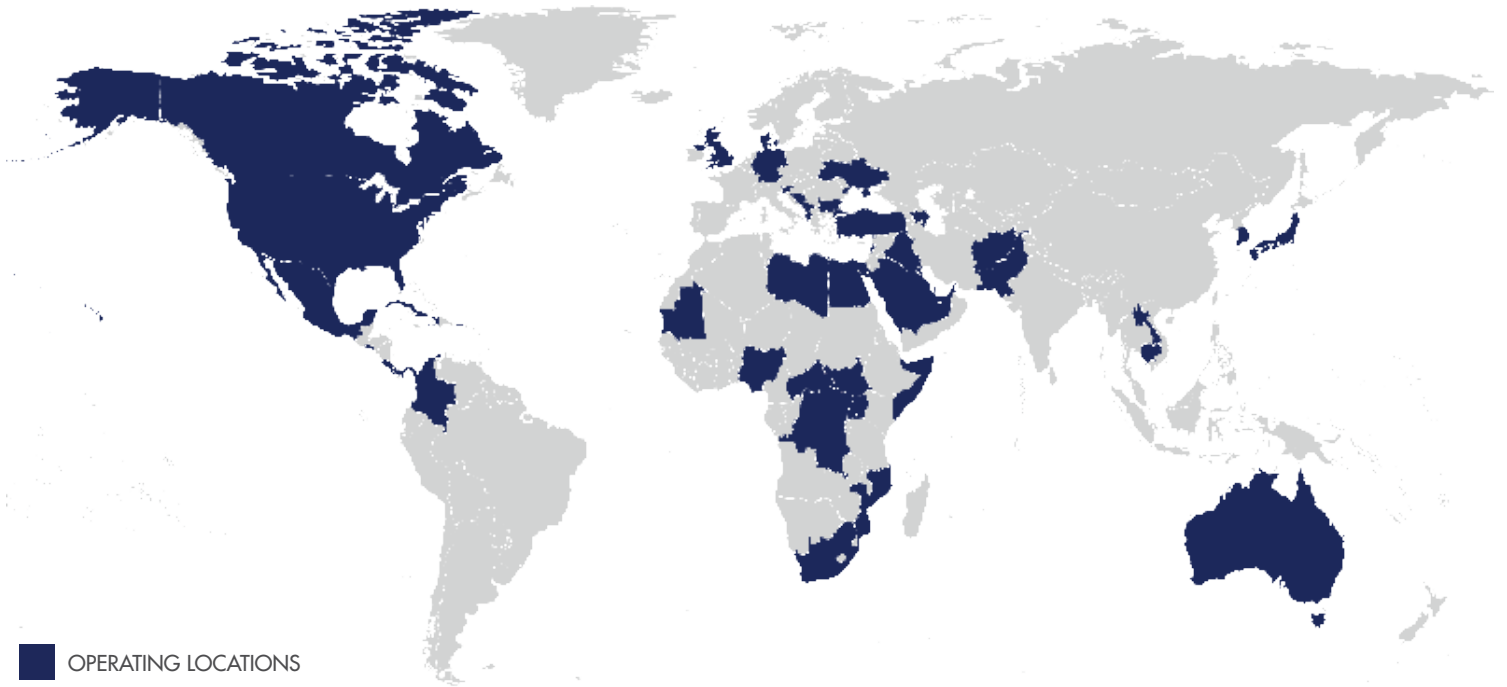

- Legacy targets adversely impact the environment and need replacement.
- Quality of training is diminished over time as targets are disintegrated into the landscape.
- 3-D steel targets are required for live fire training, which complies with Army Training Circular (TC) 25-8: Training Ranges and replicates enemy and friendly vehicles to provide more realistic training for the warfighter.

### THE JANUS GLOBAL SOLUTION

- Janus' Range Xchange® GreenTargets® are the only targets compliant with Army's Training Circular 25-8: Training Ranges.
- Ensures total compliance with U.S. DoD range sustainability directives 4715.11 and 4715.12
- Produces minimal debris resulting in fewer cleanups, increased training time and reduced lifecycle costs by an estimated 25 to 30 percent

### WHAT YOU SHOULD KNOW

- 1,254 RangeXchange® GreenTargets® currently on 49 installations around the world.
- Targets easily inserted by existing air or ground assets, requiring absolutely no maintenance once onsite and no target disassembly following use
- Provides maximum target stability with Janus' patented "Open Design" and Slip Fit" framework
  - Used with thermal signature enhancements and a broad range of munitions including small arms, mortars, projectiles up to 155mm MANPADS, helicopter-launched rockets and missiles

OPERATING LOCATIONS

## SUPPORTING SECURITY, STABILITY AND PROSPERITY

In a world where regional instability and violent extremism grow, and the nature of security and risk constantly changes, Janus Global Operations is an indispensable leader that offers integrated stability operations support to the world's largest government and commercial organizations. It serves the needs of discerning customers that understand the new complexities by delivering boundless solutions with the agility to move at the speed of the mission anytime, anywhere, with access to the right resources.

With more than 4,000 professionals worldwide, Janus serves clients in North America, Europe, Africa, the Middle East, and Asia with solutions for munitions response; humanitarian demining; environmental remediation; intelligence support; logistics; life support; risk management; communications; and other services in some of the world's most challenging and hostile environments.

# 30

years of government & commercial contracting experience

# 200K+

personnel were provided security operations worldwide without client injury, loss of life or equipment
