

STABILIZATION

In the current environment of asymmetric and non-state hostilities, humanitarian relief, stabilization, reconstruction, and redevelopment projects in areas of recent conflict can face a variety of threats to implementers, beneficiaries, and resources. IEDs and Explosive Remnants of War (ERW) are some of the most devastating and insidious of these hazards as they can be intentionally laid to hamper return of displaced populations and disrupt reestablishment of communities and civil governance. Janus Global Operations is currently implementing large scale projects to defeat these explosive hazards as well as address other threats - enabling the rapid repair of critical infrastructure and protection of civilians through a variety of sustainable risk mitigation solutions.

CLIENT CHALLENGES

- Providing humanitarian response operations in areas of recent or ongoing conflict
- Safely accessing damaged critical infrastructure to conduct evaluations and repairs to provide crucial services
- Operating in rubble-filled areas and facilities which may contain IEDs, other unexploded ordnance, structural issues or industrial health hazards which prevent access and reconstruction
- Planning and executing time-critical interventions in remote and limited accessibility areas to meet immediate, urgent needs
- Coordinating resources to address integrated threats and logistic challenges
- Measuring and communicating priorities and project effectiveness

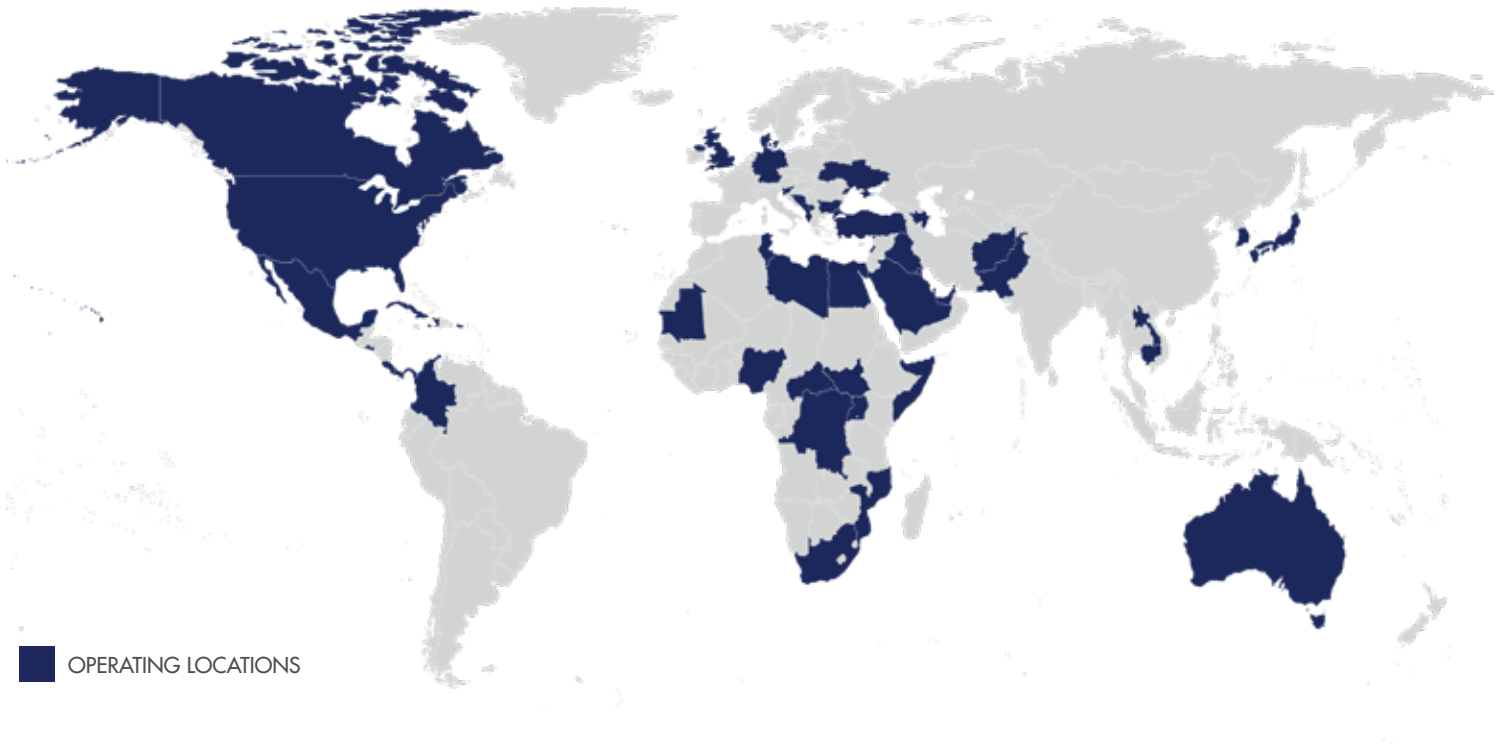

THE JANUS GLOBAL SOLUTION

Janus provides result-based, rapid, integrated, stabilization support including explosive and chemical hazard mitigation, security, and contingency operations services while maximizing community

- Primary-source based threat assessment and mapping
- Survey of key routes and terrain/facilities
- Delivery of risk and mitigation strategies tailored to threat
- Design and delivery of sustainable interventions including clearance, training, equipping, monitoring, and reconstruction
- Continuous metric monitoring and data collection to track and document impact

SERVICE OFFERINGS

- Explosive hazard clearance by a variety of methods including remote disruption, disposal, mechanical, UAV, engineering and K9 support
 - Chemical, Radiologic, Biological Explosive (CBRE) threat identification, monitoring and mitigation
 - Full range of accredited training/mentoring programs to build local stabilization capacity in: IED search and defeat, hazard awareness, survey, EOD, arms and ammunition handling and storage, security and operations planning, logistics and administration
 - Logistics and life support
 - Impact monitoring and multi-media, multi-lingual messaging
 - Visa, licensing, import and legal services

OPERATING LOCATIONS

SUPPORTING SECURITY, STABILITY AND PROSPERITY

In a world where regional instability and violent extremism grow, and the nature of security and risk constantly changes, Janus Global Operations is an indispensable leader that offers integrated stability operations support to the world's largest government and commercial organizations. It serves the needs of discerning customers that understand the new complexities by delivering boundless solutions with the agility to move at the speed of the mission anytime, anywhere, with access to the right resources.

With thousands of professionals worldwide, Janus serves clients in North America, Europe, Africa, the Middle East, and Asia with solutions for munitions response; humanitarian demining; environmental remediation; intelligence support; logistics; life support; risk management; communications; and other services in some of the world's most challenging and hostile environments.
